# How to Make Captain Green's Superhero Watch
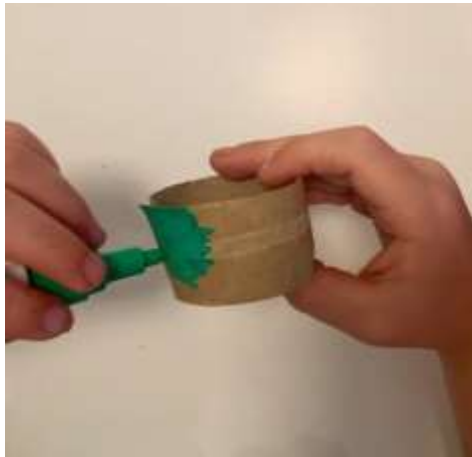

| | |
|---|---|
| 1. Cut a cardboard tube from one end to the other and then cut off enough to make your watch strap. You may need to get a grown up to help you.<br><br> | 2. Find some cardboard packaging (cereal boxes are great) and draw around a circular object to create your watch face. Cut out the circle.<br><br> |
| 3. Decorate the watch strap anyway you like.<br><br> | 4. Colour some rings around the outside of the watch face (the cardboard circle).<br><br> |
| 5. Print, cut out and stick your favourite animal onto the centre of the watch face. Or draw your own instead.<br><br> | 6. Glue the watch face onto the middle of the watch strap. Now you can rush off to save the animals just like Captain Green!<br><br> |
